

## Sterling and Wilson Partners with Uptime Institute

Hyderabad, May 15: Sterling and Wilson, India's leading Data Center EPC company, announces its partnership with Uptime Institute, the IT industry's most trusted and adopted global standard for the proper design, build and operation of Data Centers.

Sterling and Wilson provides turnkey data center services to its clientele including Design, Build, O&M and with this partnership, will also facilitate certification of Data Centers in India, Nepal, Sri Lanka, Bhutan and Bangladesh, thus further cementing its position in the Data Center industry. All Uptime Institute services will be performed directly by Uptime Institute. Henceforth,

Sterling and Wilson will be one of its kind single-stop data center solution provider for constructing Data Centers in-line with Uptime Institute's Tier Certifications of Design Documents (TCDD), Constructed Facility (TCCF), and Operational Sustainability (TCOS) as well as the M&O Stamp of Approval for management and operations. This alliance also includes Sterling and Wilson as a promoter of the globally recognized ATD, ATS and AOS educational accredited designations. The collaboration will enable both Uptime Institute and Sterling and Wilson to expand business further in India, Nepal, Sri Lanka, Bhutan and Bangladesh.

Speaking on the part-

nership, Mr. Prasanna Sarambale, CEO - Data Center Business and Group Head - Business Development, Sterling and Wilson said, "We are glad to collaborate with Uptime Institute, and believe this is the right time to expand our offerings in the Indian market. In recent years, there have been concerns over the increasing global environmental issues, which has led to an extended set of controls and certifications for Data Centers to ensure better energy-efficient, effective, and robust infrastructure. We believe our association with Uptime Institute will help us share knowledge and the experience of the best Data Center practices with our clients."
